

SKINS GAME

When assembling your Skins Game Universal Conversion Kit (34042), note that the Keypad Harness (H-23445.2) has similar connectors at each end. If you inadvertently mate the keypad end into the CPU Board, and vice-versa, the keypad will not work.

The best way to distinguish between the two connectors is to note the orientation of the colored wires on each connector.

To connector on harness of Keypad Assembly	Keypad Harness adapter	Keypad Harness adapter	To CPU Board
	1. violet	1. brown	
	2. yellow	2. red	
	3. red	3. orange	
	4. green	4. yellow	
	5. blue	5. green	
	6. brown	6. blue	
	7. orange	7. violet	
8. not used	8. key
